TOL-0010 - Stone details

Bright yellow and green flash across this 1.62 ct Coober Pedy opal triangle, with orange flecks appearing at selected angles. The rounded triangular outline presents a lively, changing color display.

Coober Pedy light opal. Semi-translucent.

Weight and measurements

Recorded weight: 1.62 ct. Approx. 9 x 8 x 3 mm (length x width x thickness), read from caliper photographs and rounded to whole millimeters. Have a jeweler measure the actual stone before making a setting.

Condition

No known condition issues, as confirmed by the cutter.

Purchase and cutting history

The rough was purchased at the Kino gem show in Tucson from a vendor who reported owning a Coober Pedy mine, then cut by The Opal Ledger. These are our firsthand purchase and cutting declarations. No laboratory report accompanies the stone.

Viewing record

Photographs and silent video show this exact stone. Color changes with light, viewing angle, camera and display. Loose stone only.
